REGISTRATION PLATES

IN THE EUROPEAN UNION, vehicles have white or yellow licence plates. The format is the same for all vehicles. There is blue strip on the left of the plate. On the blue strip is the EU symbol of 12 yellow stars and the country code of the state in which the vehicle was registered. The letters on the plate are black and the background is white or reflective yellow.

The typeface for registration plates in Germany is a special one. It is designed to be very difficult to change: for example, it is impossible to change the O to a Q, or the P to an R. It is very easy for a radar or license-plate reading machine to read this typeface. However, it is more difficult for the human eye to read it because the letters are so narrow.

Task 4 Label the registration plates in task 3 with these countries. Which registration plates are from vehicles NOT registered in the European Union?
