

Share with Friends 1 CEFR Mapping

Share with Friends

Share with Friends is a seven-level primary series in American English. By creating opportunities for sharing experiences and exchanging information, *Share with Friends* helps young learners really understand and use English in class. Real-world content motivates students to engage with authentic topics and provides genuine reasons to use the language learned. *Share with Friends* provides teachers with all the tools they need to create a positive classroom environment where empathy abounds and everyone's progress is valued. Through a focus on values and ongoing self-assessment, the course nurtures a growth mindset in students that enables them to achieve more in their learning. Each student has a Sharebook of carefully scaffolded speaking activities, making it simple for teachers to manage their classes. In the Teacher's Edition, helpful Teacher Tips in every lesson and a practical Teacher Reflection Plan guide teachers to identify, develop, and share effective techniques that lead to better learning.

The CEFR

The CEFR is an international standard which aims to provide a transparent, coherent and comprehensive means of describing language ability. It describes what language learners can do in different skills across six broad levels, from A1 to C2, with some of these levels being further broken down into sub-levels (e. g., A2 can be subdivided into A2 and A2+). It consists of a set of scales containing descriptors indicating what a learner can do in that context.

Originally published in 2001, the CEFR was extended in 2018 and now includes an expanded list of descriptors to describe language ability at different levels. The CEFR mapping for *Share with Friends* was carried out using the latest set of descriptors published in 2020, a copy of which is freely available on the Council of Europe website: <https://rm.coe.int/common-european-framework-of-reference-for-languages-learning-teaching/16809ea0d4>

How to use the Share with Friends CEFR maps

The CEFR maps for *Share with Friends* Level 1 are organized unit by unit, which allows you to browse the course learning outcomes chronologically. These are mapped to the relevant CEFR descriptor(s). The Scale column indicates which of the scales the descriptor is taken from.

Only relevant CEFR scales and descriptors have been included. All descriptors included are at or within one band of the target level of the course.
