

Chimpanzees

Chimpanzees live in forests in Africa. They have got black fur, but they have not got fur on their faces. Chimpanzees have got fingers and toes. Chimpanzees are endangered because people cut down the forests.

A chimpanzee

Amazing Fact

Chimpanzees are very clever. They can use tools.

Rainforest frogs

Most frogs live in rivers and lakes, but many rainforest frogs live in trees! Baby frogs have got tails but they have not got legs – they look like fish! Many rainforest frogs are endangered because of pollution and diseases.

A blue tree frog

Amazing Fact

Frogs are small but very loud! You can hear some frogs 1.5 kilometres away!
