Guess the Robot

Student A

Student B

Robot Cards

Robot 1

Robot 2

Robot 3

Robot 4

Robot 5

Robot 6

Robot 7

Robot 8

Robot 9

How to Play:
Students A and B each have a set of cards.
Student A: Put your robot cards in a pile, face down.
Student B: Spread your robot cards face up.
Student A: Turn over a card from the pile and describe the robot.
Student B: Try to guess the robot.
Students A and B: Take turns turning over cards and guessing the robot.

Example:
Student A: It has three heads.
Student B: Is it Robot 2?
Student A: Yes, good job!
Unit 6 Lesson 5
Three Questions

How to Play:
Student A: Look and choose one of the animals on the shelf.
Student B: Ask Student A about the face of the animal.
Student A: Look and answer Student B.
Student B: Guess the animal or ask again. You can ask three questions. Check the box if you guess correctly.
Students A and B: Take turns. Continue until all the animals are checked.

Example:
Student B: Does it have big ears?
Student A: Yes, it does.
Student B: Does it have a small nose?
Student A: No, it doesn’t.
Student B: Is it the cat?
Student A: No, it isn’t.
