Competency Focus

Think! Critical Thinking

The children use critical thinking skills to identify daily routines by using visual clues and processing the written and spoken forms.

Warmer: Good morning!

Draw a sun on the board and write *Good morning!* Have the children wave and say *Good morning!* Then call on individual children to mime something they do in the morning. Elicit any morning routines they already know.

- Play Track 6.1 and ask the children to listen and point.
- Then have them match the phrases to the small pictures of Buck, writing the numbers.
- Play Track 6.1 again, pausing for the children to repeat. Ask children to give an answer and check with the class.

Think! Critical Thinking

By looking at the story artwork, the children use prediction skills to help them engage with the story.

Digital Resources

Student eBook • Use *Highlighter* to draw attention to Pictures 11 and 12. Focus on Sonny in each picture. Elicit how he is feeling. Ask the children to predict what happened before this in the story and why Sonny feels like this.

Lesson objective: read and understand the modern rhyming story
I'm Late, Late, Late! in the Reader
Materials: Track 6.5; Reader

Warmer: Story characters

Ask the children to remember the characters from the extract (Sonny, his Aunt Sue-Sue, and his mom). Tell them there are three more people in the story. Encourage them to guess who.

Story Summary

Sonny, a young boy, is late for school. He tries to use the bathroom but someone in his family is always in there! He manages to eat breakfast but does not manage to comb his hair or wash his face.

Value: Don't be late.

))) 6.5 While reading

- Have the children look at the pictures in their Reader and identify the rooms.
- Play Track 6.5 and have the children listen and read along. Elicit the new characters in the story: Papa, Jay-Jay, and Gran-Gran.
- Play Track 6.5 again, pausing after pictures 3, 6, and 10 to ask *Who's in the bathroom (now)?*
- Read the story to the children yourself slowly, using different voices for each character and knocking on the table when appropriate. Have the children mime the actions of the characters as you read along.
- Check comprehension of the story by asking *Who's late? (Sonny) Are his dad, brother, or grandma late? (No, they aren't.)* Then have the children consider whether or not it is Sonny's fault. (They might need to use L1.)

After reading: Reflect

- Ask *Did you like the story? Why or why not? Do you feel sorry for Sonny?* Then have them say if they are usually late or on time. Encourage them to think about the importance of being on time. Do they like waiting for other people? (You might need to use L1.)

Optional activity: Knock, knock, knock!

Have the children stand in pairs, back to back. Ask one child to mime knocking, saying *Knock, knock, knock. Who's in there?* (Knock on the table at the same time.) Have the other child walk to face their friend and say *It's me!* (*Pedro!*)

Story Time

Repetition and chants

Some children may get distracted when they are listening passively. To encourage active participation, choose key phrases (featuring repetition and rhyming) for the children to repeat or supply as you tell the story.

Reading Strategy

Choral Reading

In Choral Reading, the children read aloud as a group or as a whole class. It is a useful strategy particularly for young and less confident readers. It helps develop their fluency, pronunciation, and intonation.

For additional explanation and activities, see the Literacy Handbook on Teacher Resource Center.

Cooler: The "Lesson's Over" chant

Have the class chant *I pack my bag. It's time to go home. I'm late, I'm late. Come on! Come on!*, miming the action of packing a bag. Once the children have memorized the chant, have them chant it at the end of class in other lessons too.

Digital Resources

Reader eBook • For the Warmer, children identify the other characters in the story. Ask them to try to figure out from the Reader pictures what these people all have in common. (*They all use the bathroom and make Sonny late.*)

Reading Comprehension and Critical Literacy

Lesson objectives: focus on rhyming words; think about ways to help the main character

CLIL: Math—Water use

Lesson objective: find out about the importance of water and saving it by doing a quiz

Materials: Track 6.9; CLIL Graphic Organizer 6 [TRC printout] (optional);

1 liter bottle of water, construction paper for poster (optional)

CLIL Math Lesson 7

1 Listen and read. Then circle your answers.

Using Water

How much water do you use every day? Do you take a shower every day? That's 30 liters! Do you wash your hands before lunch? Do you brush your teeth before bed? It's important to be clean, but it's important to save water, too. Answer these questions. Then count your total.

1 Do you take a shower every day? Yes (30 liters) / No
 2 Do you use the bathroom 3 or 4 times every day? Yes (28 liters) / No
 3 Do you wash your hands before lunch and dinner? Yes (5 liters) / No
 4 Do you brush your teeth in the morning and at night? Yes (5 liters) / No
 5 Do you wash your face in the morning and at night? Yes (5 liters) / No

TOTAL _____ liters

2 Show your result in the chart below.

3 Class Vote!
Both or shower?
Which is better?

Find Out More!
How can you save water? Search the Internet or ask your teacher.

- Ask children to show the class their bathtub and say *I use (45) liters of water a day*. Find out who uses the smallest and biggest amount in the class.

Answers

Children's own answers.

3 Class Vote!

- Organize your class vote. Ask children if they prefer taking a bath or a shower. Then have them think which is better for the environment. Give the children a minute to think. Then write *bath* and *shower* on the board. Have the children raise their hand for each answer. Count the votes and write the totals on the board. Elicit the result of the vote.

Find Out More!

Ask the children if they know of ways to save water, e.g. *turn off the tap while you are washing your face/brushing your teeth*. (They might need to use L1.) Ask the children to find out more ideas. Suggest appropriate resources, e.g. Internet, library books, etc., or provide the information yourself. The children will need to complete this research before doing the follow-up activity in the Activity Book. (It could be set as homework.)

Optional activity: Class Poster—Save water

Create a "Save water" poster with the class. Ask the children to write advice/ideas on the poster, find pictures, or draw to decorate the class poster. Display it in class or in the school.

Lesson 7 CLIL

1 How much water do you use in one day? Write and do the math.

Cooler: Play "Whisper It!"

Have the children play the game with actions and routines from the lesson (see Games Bank p. 222).

Competency Focus

Act

The children carry out research to find out ways to save water. This helps them expand their learning and relate it to their world, both inside and outside the classroom.

1))) 6.9 Listen and read. Then circle your answers.

- Have the children look at the pictures and ask *What are they doing?* (*washing hands, brushing teeth*)
- Play Track 6.9 and have the children listen and read along.
- Then have the children read questions 1 to 5 again and circle *yes/no* for them.
- When they have circled their answers, ask the questions again and elicit *yes/no* from the class. Show them a 1 liter bottle of water to help them understand the quantity of water for each *yes* answer.
- Ask the children to calculate the total number of liters they use every day. Walk around and help. Elicit answers from the class.

Answers

2 Show your results in the chart below.

- Point to the chart and have the children mark their result according to their total in Activity 1. Have them color the bathtub blue up to their mark.

Project

Lesson objectives: review language from Chapter 6; complete a craft project—making a clock; act out the story from the Reader

Materials: Reader; black and white construction paper, black marker, felt-tip pens, watercolors, paintbrush, paper fastener; paper plates (Alternative craft activity)

Project Prepare

1 **Make a clock.**

2 **Tell the story. Use your clocks.**

Showcase

I get up every morning at a quarter to eight.

Warmer: Times in the story

Ask the children to look at the story in their Reader and underline the times. (*a quarter to eight—picture 1, eight o'clock—picture 5, etc.*) Elicit the times from the class in order.

Prepare

1 Make a clock.

- Have the children look at the completed clocks. Ask *Which do you like best?* Tell them they are going to make their own clock.
- Hold up the materials to show the class. Point to the pictures and explain the stages. (You might need to use L1.)
- Demonstrate how to make a clock, stage by stage.
- Divide the class into pairs or groups if it is necessary to share materials. Give out the materials.
- As the children make their clocks, monitor and give help as necessary. Make sure one hand is clearly longer than the other.

Alternative craft activity

A simpler option would be to give the children paper plates to use for their clocks.

Showcase

2 Tell the story. Use your clocks.

- Choose a child to help you act out the first part of the story (pictures 1–6). Act out Dad and Jay-Jay, and the child can be Sonny. Hold the child's clock and invite them to show the time.
- Divide the class into pairs to act out the story. Have them take turns being Sonny and the other characters. Give them time to practice using their Reader. Monitor and give help during rehearsal time.
- Ask pairs to perform their story using their clocks.

Optional activity: What time is it?

Divide the class into small groups. Have a child in each group show a time on their clock (secretly). Their group asks *What time is it?* and they answer, then show their clock for the group to confirm.

Lesson 8

1 **Play "Tic-Tac-Toe."**

Play in pairs. Choose O or X. Take turns starting. Choose a square. Say what you do every day at that time. Draw O or X. The first player to get three in a row is the winner.

I get up at seven o'clock.

2 **Play again. Say when you do/don't do each thing.**

get up	go to school	brush my teeth
eat breakfast	take a shower	get dressed
wash my face	go to bed	go to sleep

I don't take a shower at eight thirty.

3 **Now make your own game and play again.**

1 Play "Tic-Tac-Toe."

Read the instructions with the class. Demonstrate the game on the board with a child. Then have the children play in pairs.

2 Play again. Say when you do/don't do each thing.

Have the children play the game with a different friend and the new prompts. Make sure they use the affirmative and negative form of the verbs. Have them draw O or X.

3 Now make your own game and play again.

Tell the children to complete the Tic-Tac-Toe grid with their own ideas, e.g. times and/or verbs. In different pairs, have them play each other's game making correct sentences with the words/phrases/times in the grid.

Cooler: Clock gallery

Have the children place their clocks on their desks face up. Have them walk around the desks in pairs. Tell them to look at the clocks and ask and answer with their friend, e.g. *What time is it?* (e.g. *It's seven o'clock.*)

Competency Focus

Collaborate and Communicate

By acting out the story, the children consolidate their understanding in a fun and engaging way. They also demonstrate their ability to work with friends and use interpersonal skills.

Language Review

Lesson objective: review language from Chapter 6

Materials: Tracks 6.10, AB 6.1, AB 6.2 and AB 6.3; clocks from Lesson 8 (optional)

3 Think about Chapter 6. Color the books.

Look back at pages 4 and 5. Find: 9:30

Warmer: Human clock 2

Draw a big clock on the board (without hands). This time, invite children to stand and mark the time with their arms. The class says what time it is.

1))) 6.10 Listen and match.

- Ask the children to look at the pictures. Elicit what the girl is doing in each one. Then point to the clocks and elicit the times.
- Play Track 6.10 and have the children match the pictures and clocks. Play Track 6.10 again for them to check their answers before checking with the class.

Ask the children to look at Student Book pp. 4–5 and find a clock showing 9:30. Have the children raise their hand when they find it.

Cooler: Is it the same for you?

Invite a child to read one of their answers from Activity 2. Have the children stand up if they answered the same thing. Repeat with different children prompting.

Competency Focus

Me: Self-evaluation

The children reflect on the chapter and express their opinions about their own progress. This encourages them to evaluate and make decisions about how they learn and what they need to revisit.
