Community Service

Community service is work people do to help the community. A lot of community service projects are done by volunteers. Sometimes schools organize community service projects. Are there any community service projects at your school?

Is there a community garden? Water the plants. Clean up the trash. Cleaning up is a great way of helping the community. Are there any poor children or is there an orphanage near you? Collect toys and clothes. Donate them to children in need.

Look at an example of a project that needs our help.

Help Baby Sea Turtles

Sea turtles are in danger of extinction. Sea turtles lay their eggs on the beaches of Puerto Vallarta in Mexico, and then return to the ocean. Their eggs are in danger. People and animals take them away and eat them. Not many hatch! But when they hatch, the baby turtles have to reach the ocean. More danger! Seagulls eat them. That is why young volunteers pick up baby turtles and carry them down to the water safely.

There are many projects that need participation from volunteers. Look them up online, in community centers, neighborhood organizations, or your school. Teenagers like you can help. You can make your neighborhood a better place to live in. Think about it!

3. Read the text again. What is community service? Underline.

- a) A professional job that helps the community.
- b) Cleaning your house and picking up the trash in your bedroom.
- c) A way to make a better life for the people in the neighborhood.
